Contents Volume 209 (1999)

Fluxes of CH_4 and N_2O in aspen stands grown under ambient and twice-ambient CO_2
P. Ambus and G.P. Robertson **1–8**

Salinity-yield response functions of barley genotypes assessed with a triple line source sprinkler system
A. Royo and R. Aragüés **9–20**

The management of rice straw, fertilisers and leaf litters in rice cropping systems in Northeast Thailand
K. Naklang, A. Whitbread, R. Lefroy, G. Blair, S. Wonprasaid, Y. Konboon and D. Suriya-arunroj **21–28**

The management of rice straw, fertilisers and leaf litters in rice cropping systems in Northeast Thailand
A. Whitbread, G. Blair, K. Naklang, R. Lefroy, S. Wonprasaid, Y. Konboon and D. Suriya-arunroj **29–36**

Red oak litter promotes a microarthropod functional group that accelerates its decomposition
R.A. Hansen **37–45**

Response of cucumber (*Cucumis sativus* L.) to an unequal distribution of salts in the root environment
C. Sonneveld and C. de Kreij **47–56**

Modelling of the dynamics of Al and protons in the rhizosphere of maize cultivated in acid substrate
H. Calba, P. Cazevieille and B. Jaillard **57–69**

Element concentrations in the boreal forest moss *Hylocomium splendens*: variation related to gradients in vegetation and local environmental factors
T. Økland, R.H. Økland and E. Steinnes **71–83**

Nutritional status of a Norway spruce stand in SW Sweden in response to compensatory fertilization
N. Salih and F. Andersson **85–100**

Maximum axial root growth pressure in pea seedlings: effects of measurement techniques and cultivars
L.J. Clark, A.G. Bengough, W.R. Whalley, A.R. Dexter and P.B. Barraclough **101–109**

Nitrogen uptake and root morphological responses of defoliated *Lolium perenne* (L.) to a heterogeneous nitrogen supply
L. A. Mackie-Dawson **111–118**

Depletion of soil mineral N by roots of *Cucumis sativus* L. colonized or not by arbuscular mycorrhizal fungi
A. Johansen 119–127

Simple stereological procedure to estimate the number and dimensions of root hairs
D. Wulfsohn and J.R. Nyengaard 129–136

Persistence of tree related patterns in soil nutrients following slash-and-burn disturbance in the tropics
I.C. Dœckersmith, C.P. Giardina and R.L. Sanford, Jr. 137–156

Does water and phosphorus uptake limit leaf growth of *Rhizoctonia*-infected wheat seedlings?
J.A. Kirkegaard, R. Munns, R.A. James and S.M. Neate 157–166

Fractal analysis of the root architecture of *Gliricidia sepium* for the spatial prediction of root branching, size and mass: model development and evaluation in agroforestry
H. Ozier-Lafontaine, F. Lecompte and J.F. Sillon 167–180

Nitrogen nutrition in nodulated field plants of the shrub tea legume *Aspalathus linearis* assessed using ^{15}N natural abundance
M.L. Muofhe and F.D. Dakora 181–186

Effect of iron plaque outside roots on nutrient uptake by rice (*Oryza sativa* L.): Phosphorus uptake
X. Zhang, F. Zhang and D. Mao 187–192

Fine-root growth, mortality and heavy metal concentrations in limed and fertilized Pinus silvestris (L.) stands in the vicinity of a Cu-Ni smelter in SW Finland
H.-S. Helmisaari, K. Makkonen, M. Olsson, A. Viksna and E. Mälkönen 193–200

Calibration of minirhizotron readings against root length density data obtained from soil cores
J.E. Ephrath, M. Silberbush and P.R. Berliner 201–208

Soil solution chemistry in the rhizosphere of roots of sessile oak (*Quercus petraea*) as influenced by lime
M.R. Bakker, A. Dieffenbach and J. Ranger 209–216

Effects of silicon on enzyme activity and sodium, potassium and calcium concentration in barley under salt stress
Y. Liang 217–224

The uptake of copper by plants dominantly growing on copper mining spoils along the Yangtze River, the People's Republic of China
S. Tang, B.-M. Wilke and C. Huang 225–232

Wildfire effects on carbon and nitrogen in inland coniferous forests
M. Baird, D. Zabowski and R.L. Everett 233–243

Uptake of zinc by rye, bread wheat and durum wheat cultivars differing in zinc efficiency
B. Erenoglu, I. Cakmak, V. Römheld, R. Derici and Z. Rengel 245–252

The effect of dazomet and fosetyl-Aluminium on indigenous and introduced arbuscular mycorrhizal fungi in commercial strawberry production
G.L. Mark and A.C. Cassells **253–261**

Phosphorus nutritional effects on root hydraulic conductance, xylem water flow and flux of magnesium and calcium in squash plants
T.M. Reinbott and D.G. Blevins **263–273**

Effect of soil type and plant species on the fluorescent pseudomonads nitrate dissimilating community
A. Clays-Josserand, J.F. Ghiglione, L. Philippot, P. Lemanceau and R. Lensi **275–282**

Effects of phosphorus nutrition on tiller emergence in wheat
D. Rodríguez, F.H. Andrade and J. Goudriaan **283–295**

Plant induced alteration in the rhizosphere and the utilisation of soil heterogeneity
M. Schöttelndreier and U. Falkengren-Grerup **297–309**

Volume contents **311–313**

Author index **314**
